***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The prior art teaches an imaging device having photodiodes, processors, thinning processors and interpolation processor. However, the prior art does not teach or fairly suggest the detailed interpolation process claimed in the independent claims in association with the thinning and reading processors. Therefore, the claims are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
